note: ° indique un modele ancien supprime par la suite au profit de la fiche standard 4 broches.

"= réglage de volume entre cette broche et la masse.

- C = COMMUN
- M = MASSE
- MIC = PASTILLE
- RX = RECEPTION
- TX = EMISSION

Mon fichier est incomplet car il date de fin des années 80, début des années 90. Il manque donc les nouvelles marques sortie depuis, mais qui sont bien souvent des sous marques de celles présenter ici. ;)
